

A QUESTION ABOUT
Brown's Iron
Bitters
ANSWERED.

The question has probably been asked thousands of times, "How can Brown's Iron Bitters cure everything?" Well, it doesn't. But it does cure any disease for which a reputable physician would prescribe IRON. Physicians recognize iron as the best restorative agent known to the profession, and inquiry of any leading chemical firm will substantiate the assertion that there are no preparations of iron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact, that prior to the discovery of BROWN'S IRON BITTERS no perfectly satisfactory iron combination had ever been found. BROWN'S IRON BITTERS is the only iron medicine that cures indigestion, biliousness, weakness, dyspepsia, malaria, chlorosis, and fever, tired feeling, general debility, pain in the side, back or limbs, headache and neuralgia—for all these ailments iron is prescribed daily. BROWN'S IRON BITTERS, however, does more. Like all other thorough medicines, it acts slowly. When taken by men the first symptom of benefit is renewed energy. The muscles then become firmer, the digestion improves, the bowels move regularly. In women the effect is usually more rapid and marked. The eyes begin at once to brighten; the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular; and if a nursing mother, abundant sustenance is supplied for the child. Remember, Brown's Iron Bitters is the ONLY iron medicine that is not injurious. Physicians and Druggists recommend it. The Genuine has Trade Mark and crowned red lines on wrapper. TAKE NO OTHER.

TWO DISASTROUS FIRES.

EVANSVILLE, INDIANA AND CHICAGO, ILLINOIS SUFFER HEAVY LOSSES.

Twenty Acres of Lumber Yards in Ruins, Firemen Exhausted by the Heat, and Water Supply Falls—Beyond the Control of the Firemen and Spreading.

EVANSVILLE, Ind., Aug. 4.—At 12:15 this morning an alarm of fire was sounded from box 15 calling the department to the yards of the Armstrong Furniture company, where fire had broken out in the stable. When the department arrived the flames had gained great headway and spread rapidly to the lumber pile, and the second and third alarms called the entire department to the scene. By this time the fire had secured such a hold upon the yard that it was madness to think of extinguishing it. First one lumber pile and then another caught, until at 3:15 a. m. over twenty acres, comprising the lumber yards of the Armstrong company and A Reits, were in ruins and the fire still spreading.

To add to the difficulty of fighting the flames, the water supply partially failed at 2 o'clock, and there were only three steamers at work.

The heat was something terrific from the burning millions of feet of lumber, and the firemen were almost exhausted two hours after beginning work, but kept at work until 3 o'clock, when a call for volunteers was issued and the worn-out fire laddies were given a chance to rest. Chief Kling, of the fire department, who was at Princeton, arrived shortly after 2, and assumed full charge. Previous to his arrival ex-Chief Hollingsworth had command.

Three locomotives removed cars on the lumber yard side tracks, but not till several of the cars were burned. Thirty thousand dollars' worth of tobacco is in the fright warehouse. Armstrong's factory is threatened more than ever. All the tools and moveable pieces of machinery have been removed. Should the factory burn nothing on earth can save the entire section of town this side of the creek, as it is one vast lumber pile, and very dry.

There were 1,000,000 feet of lumber belonging to Armstrong and 5,000,000 feet to Reitz, mostly ash and poplar. The valley looks like what I would imagine sheol to look like, only hotter.

Disastrous Fire in Chicago.

CHICAGO, Aug. 4.—At 9:15 o'clock this morning the third alarm of fire sent engines scurrying out on the north side to quench what promised to be a very extensive blaze in the American Varnish factory, North Branch and Cherry streets. W. J. Hill's adjacent box factory was also burned.

The buildings in the immediate vicinity caught fire, and the flames gave large promise of spreading. A saloon and grocery store on the opposite side of the street were burned, and the flames communicated to a coal office near the factory.

The following firemen were injured by the inhalation of flame and smoke: Frank Geiss, Engine Company No. 4; Edward Riley, Hook and Ladder Truck No. 2; Charles Schultz, Engine Company No. 3. The two former were soon resuscitated, but Schultz's life is despaired of.

The damage to the Hill mill is about \$22,000; insurance \$9,000. Dunn's house was worth \$15,000. The flames were under control by 11 o'clock, though danger of a wide spread conflagration was over half an hour before. Other losses, \$3,500.

CHINESE SUPERSTITION.

The Telegraph a Diabolical European Artifice.

SAN FRANCISCO, Aug. 4.—The Occidental and Oriental steamer Gaelic arrived last night from the Orient after a very quick passage of fourteen days and nine minutes. She brings Yokohama papers up to July 19, and China news up to July 11.

S. S. Popoff, Chinese secretary to the Russian legation in Peking, has just published a pamphlet on the Chinese population, in which he states it to be \$2,000,000, as against 413,000,000 in the year 1843. His statistics are derived from Chinese official sources.

The Chinese native papers contain the following items:

Plague of sudden death is raging at Nankin. People are dying in every quarter, and there are many instances of very sudden deaths. People are apparently well in the morning and dead in the afternoon.

The Hu Pao says that over 1,000 telegraph poles, belonging to the Munan Mingtaz district, and Kwelchow Lane line, have been pulled down by the people, who say the telegraph is a diabolical European artifice. Troops to the number of 2,000 have been ordered to the spot. Last week, according to the Shen Pao, no less than eighty-eight persons were summarily executed near Shanghai, belonging to secret societies. The Shen Pao gives the most harrowing accounts of floods at Chu Chou Fu, up the Wenchow river. Over a thousand human beings have been swept away, and the destruction of growing crops is immense.

Effect of a New State Law.

HUNTSVILLE, Ala., Aug. 4.—Dr. W. H. Saunders, a physician appointed to make examinations of locomotive engineers and other railroad employees under the new state law, which went into effect yesterday, abandoned his work at Stevenson yesterday and has run away to Birmingham. He was arrested on a writ of mandamus, which requires him to complete his tests as to color blindness. His reason for abandoning the work is said to be trouble with railroad men who dislike the new law, many of them refusing to submit to examinations. Over 20,000 are affected by the law, and it is estimated that over 3,000 will be forced to give up their positions.

Opium Smuggler Sentenced.

SAN FRANCISCO, Aug. 4.—George Cannon, better known as "Detroit Prince," was yesterday sentenced to eighteen months' imprisonment for smuggling opium.

NEW YORK, Aug. 4.—Rev. C. G. Martin, of Albany, called to-day for Constantinople, having received the appointment of professor of elocution at Roberts college.

ONE MILLION WORTHLESS CHECKS.

Why Miss Josie Holmes Was Arrested. Reporting Checks as Cash.

CINCINNATI, Aug. 4.—The bank examiner seized among the effects of the Fidelity a lot of checks which had been reported to the controller of the currency as cash, but which are all worthless. There were three checks drawn by Swift's Iron and steel works, aggregating \$154,000. Five drawn by J. W. Wilshire & Co., aggregating \$73,100.92, and ten drawn by Wilshire, Robert & Co., aggregating \$879,800, making a grand total of \$1,107,900.92.

The district attorney, in speaking of Miss Josie Holmes, Vice President Harper's confidential clerk, confined in jail here, said:

"There is one thing in this community which should be put a stop to, and that is the attempt to create sympathy for this woman. She is unworthy of it. I have never in my life been brought into contact with a woman who had less feeling for her own sex. In a word she is absolutely heartless. I do not think it will do any harm just at this time to tell just what we were trying to ascertain from her, and then let the public judge for itself as to her course. In the first place there are no less than twenty separate counts upon which we can indict and send her to the penitentiary, but we did not intend to arrest her until after the grand jury had acted upon her case, and should not have done so had she shown the least particle of feeling for her fellow creatures. It was our intention, having ascertained the amount lost by the speculation in the Chicago wheat deal, to bring suit on behalf of the depositors against the Chicago parties to recover the amounts lost. Miss Holmes knew just which deposits were so applied and this is what we tried to get her to tell so that we might be enabled to bring suit in behalf of the proper parties. After fooling me for several days I endeavored to appeal to her womanly feelings and read her several very touching letters I had received from widows who had lost their all in the bank, and beseeched her to have some compassion for these women and their children who were suffering because of the scoundrelly manner in which the bank had been robbed, but she only laughed at me, and laughed while I read the letters which I thought were pathetic enough to bring tears to the eyes of a demon. Judge Wilson, her attorney, advised her to give the information desired, but still she refused, saying, she had been advised otherwise. I suppose Harper was her adviser. I do not want to be understood as saying that she was, but I am satisfied that such is the fact. Now, what I want to know is, of how much sympathy is such a woman deserving?"

A Big Washout.

GREENFIELD, Mass., Aug. 4.—A large number of teams left Greenfield this morning for Ewing, to be used in transferring passengers from the east around last night's washout on the Fitchburg railroad at that point. The eastern bound trains will continue on schedule time to Miller's Falls; those passengers will be transferred. No trains can possibly be got through for several days.

Women Suffragists.

KENOSHA, Wis., Aug. 4.—A conference of friends of the political emancipation of women, under the auspices of the Wisconsin Women's Suffrage association, opened here to-day, the attendance being large. Mrs. E. L. Saxon, of Kansas, and Rev. Olympia Brown Willis, of Racine, president of the state society, were the principal speakers to-day.

Will Not Resume.

NELSONVILLE, O., Aug. 4.—Many miners of this section had decided to resume work this morning, but were advised by J. H. Taylor, president of the Miners' union, to withhold until the meeting of the board Thursday. The miners now ask their leaders to enforce the law relating to the semi-monthly pay system, and to take it to the courts.

An Ex-Postmaster Shot Dead.

ST. LOUIS, Mo., Aug. 4.—Last evening Michael Murray shot and instantly killed F. E. Booskey, ex-postmaster of Mitchell, Ill., at the latter's hotel in that village. It seems that Booskey was abusing a negro waiter, and Murray, who was a guest of the house, remonstrated, when Booskey advanced menacingly toward him, whereupon he drew a revolver and shot Booskey through the head.

Indians on the War Path.

AITKIN, Minn., Aug. 4.—The red men are on the warpath. Sheriff Markham came home this morning from the Mille Lac reservation. He reports them with half moons on their faces, ready for war. While the sheriff and a posse were going out they were watched by a dozen Indians with rifles. Three Indians have been killed and more are to follow.

Result of a Feud.

LITTLE ROCK, Ark., Aug. 4.—Ike Medith shot and killed John and Joe Evans, brothers, in Faulkner county, yesterday. He then fled, and is being pursued by friends of the murdered men. A feud had existed between the parties, and on their meeting yesterday hot words were exchanged, followed with shots with the result described.

There Will Be No Codfish War.

OTTAWA, Ont., Aug. 4.—There was an important cabinet meeting yesterday in regard to the recent seizure of American fishing craft. The British government has urged Canada to make certain concessions as the only means of enabling Great Britain to maintain her friendly relations with the United States.

Fred. Grant a Candidate.

NEW YORK, Aug. 4.—The Republican state committee seem to think that a great deal of work is necessary to arouse voters and get them to the polls. The nomination of Col. Fred. Grant for secretary of state, which is the head of the ticket, appears now quite probable.

PEORIA, Ill., Aug. 4.—Prinz & Ulrich's malt house burned here at midday yesterday. Loss \$35,000; insurance \$13,000. Origin spontaneous combustion.

CRIMES AND CASUALTIES.

ELEVEN PEOPLE CRUSHED TO DEATH BY FALLING WALL.

The Danger of Tearing Down the Walls of a Burned Elevator—Murder at Cynthiana, Kentucky—A Sheriff Nearly Murdered by a Prisoner Who Escapes.

MINNEAPOLIS, Minn., Aug. 4.—A terrible accident occurred this morning at the ruins of the St. Anthony elevators, which burned July 10. Twelve workmen were on the south side of the ruins this morning where a stone wall was left standing. They had taken away all the damaged wheat outside of this wall, leaving it with no support on the outside and a large mass of wheat pressing out from the inside. As might have been expected, the whole wall fell, burying beneath it the entire party.

There was not a sound of warning, and the great mass of stone and wheat toppled over as silently as if it had been a sponge falling on velvet. The work of digging the victims out was immediately begun. So far seven have been taken out, six of them dead. Gus Brown, P. P. Anderson, Ed. Markey, John Johnson and Thomas Dempsey have been identified. Amund Ericson was but slightly injured. The other five still in the ruins are undoubtedly dead.

Escaped From a Sheriff.

MARION, Ind., Aug. 4.—Last evening Deputy Sheriff Buck Stanley, of Logansport, who recently became famous by his capture in Texas of the notorious Green brothers, Lou Mabbitt's murderers, arrested the notorious pickpocket "Windy Dick," on a west bound Pan-Handle passenger train coming into Marion. Two of "Windy Dick's" pals interfered, but the arrest was accomplished without bloodshed. Stanley started back to Logansport this morning at 3 o'clock with his prisoner, Stanley being partially intoxicated. At Bunker Hill, twenty miles west, three of "Windy Dick's" confederates rushed on the officer, beat him nearly to death, took his revolver and liberated the prisoner. All four jumped from the train while it was running at a rapid rate. Stanley was taken on to Logansport. His injuries are said to be of a dangerous character. The prisoner and liberators, "Windy Dick" and his rescuers, who are unknown, are still at large, but an organized effort is being made for their capture.

Murdered His Mistress.

CYNTHIANA, Ky., Aug. 4.—Last night about 10:30 o'clock Frank Spohn, a young man, son of a wealthy butcher of this city, shot several times and instantly killed Carrie Vanhook, a young mulatto of loose character, with whom he had been very intimate. The shooting took place on Bridge street, near the old bridge over the Licking, and immediately after the shots were fired the murderer made his way across the bridge and escaped to the country. The affair creates intense excitement. Spohn is of good family, was strictly temperate, and has saved a nice sum of money. No cause except jealousy can be assigned for the crime.

Shot More Than a Hundred Times.

NEWPORT, Ark., Aug. 4.—A mob of one hundred armed men rode into Jacksonport about 1 o'clock yesterday morning, and took Leonard Boyd, a suspected wife murderer, from jail. They started for the suburbs, but Boyd snatched a rifle from a man riding beside him and running about ten rods then turned and fired twice, hitting one man. The mob fired a volley at Boyd and then rode over him, firing into his body until their guns were unloaded. More than two hundred bullets entered his body.

Brutal Wife Murder.

PHILADELPHIA, Aug. 4.—John Goener, aged sixty-three, beat his wife, Bridget, over the head with a cane so severely yesterday morning, that she died soon afterwards. Goener was arrested. Richard Peters, who was present during the assault, was held as a witness.

The Big Steam Barge Launched.

WILMINGTON, Del., Aug. 4.—The Harbor & Hollingsworth company launched the steam barge John W. Garrett, the largest vessel ever built in this country. Her dimensions are 366 feet in length and 76 feet at the widest part. She can carry fifteen passenger and thirty freight cars at one time. She is owned by the Baltimore & Ohio Railroad company and will be used in transferring trains between Locust Point and Canton Baltimore.

Too Hot for Icelanders.

NEW YORK, Aug. 4.—Wagner Gudmunson, one of ninety Icelanders, who arrived here Monday, was overpowered by the heat, and died yesterday. His widow and two children will be sent back to Iceland. Gudmunson's illness resulted from his working about the streets with the mercury at 93 degrees, in Iceland costume, consisting of three woolen shirts, a woolen jacket and a coat.

California Fruit.

SAN FRANCISCO, Aug. 4.—The shipment of fruit to the east has reached such proportions that tri-weekly trains are rendered necessary, and railroad men say that daily trains for Chicago and New York will soon be put on. The first shipment of grapes to the east was made Saturday, and a second train left last night. These fruit trains reach Chicago in 110 hours. Each car carries twenty-two thousand pounds of fruit.

New York, Aug. 4.—Editor Robert Bruce, of the Central New Jersey Herald, called ex-Speaker Dunn a liar in an Elizabeth bar-room last night, and Dunn slapped Bruce's face. Several blows were exchanged before the men were parted. A duel is quite probable.

Returns from the Kentucky Election.

LOUISVILLE, Ky., Aug. 4.—Returns from sixty-eight counties show net Republican gain of 21,196. If this proportion is kept up Buckner's majority will be only 7,425 in the entire state. The Republicans are claiming the election of Bradley.

Woman Adjudged an Habitual Drunkard.

STRAUSBURG, N. Y., Aug. 4.—Mrs. John Greenway, widow of the wealthy brewer, has been adjudged an habitual drunkard by a sheriff's jury and as unable to take care of her property.

GEORGE WILLIAM CURTIS.

An Extract From His Speech Delivered Before the Civil Service Reform League.

NEWPORT, R. I., Aug. 4.—In his annual address to-day before the National Civil Service Reform League George William Curtis, among other things, said: "Until the pension vetoes and the recent orders in regard to the return of rebel flags, partisan hostility to the present administration expressed itself chiefly in censure of its failure to conform to an absolute standard of reform. This censure and the continuous discussion imply a profound interest in the subject. The division in the administration party springs from the same question, and is another striking illustration of its hold upon the public mind. Moreover, the success of the Democratic party in the next election undoubtedly depends upon its renomination of the president, who is identified in the public mind with the cause of reform; and it is equally beyond question that if the president should formally renounce the reform principles that he has declared, and which he honestly cherishes, and should frankly announce that the general political reconstruction of the civil service which, I regret to say, has taken place under his administration, is due to a change of conviction upon his part in favor of the soils system, he would be abandoned by so large a body of citizens as to bring his re-election into serious peril. Those are all unmistakable signs of the rapid growth of a public sentiment friendly to reform. Another sign of public sentiment favoring political reform is the fact that when not speaking for partisan purposes men of all parties agree that some safeguard is demanded against the corrupting influences that accompany our present political system. No man can doubt the growth of this public sentiment. It is equally undeniable that official action does not advance with equal steps.

"I do not doubt the strong conviction and honest purpose of President Cleveland. Like Gen. Grant, he has undoubtedly found the force of the spoils tradition overwhelming. He has undoubtedly believed that unbending fidelity to reform would disrupt the party, alienate the majority in the house and make it impossible for him to serve reform or to make his administration useful. He has yielded as he thought the public welfare required and not in bad faith. He cannot be accused of breaking any pledges. His sense of the doubt of effective accomplishment of reform, so long as the public mind was but practically informed on the subject, prevented him from making absolute promises. But we must be just to ourselves as well as to him. It would be a great wrong to the cause which the league represents if it did not plainly declare that it does not regard the administration as in any strict sense a civil service reform administration. Yet under it much has been gained for reform."

Mr. Curtis here analyzed and criticized some of the acts of the administration, and especially condemned the disregard of reform shown at Baltimore. He concluded by saying:

"While in a review of the year we find a certain reaction in executive and legislative conduct, we can see only steady progress in public sentiment. That cause is always safe which is in sympathy with great moral forces, and I know no cause of which this may be more truly said than of civil service reform."

CHIEF OF THE CHEROKEES.

Mayes Elected Over Bunch By a Small Majority.

LITTLE ROCK, Ark., Aug. 4.—An Indian Territory special says later returns from the election for chief of the Cherokees indicate that Mayes has been chosen over Bunch by a small majority. Joel B. Mayes, the newly elected chief, is one-quarter Cherokee, and belongs to an illustrious family.

He was chief justice of the supreme court of the Cherokee Nation for a term of years, and is an able and distinguished man. Samuel Smith, who was elected assistant chief, is a full blooded Cherokee. The triumph of Mayes will completely change the political situation of the Cherokee country. Bunch and Bunch have held office for years, and have shaped the policy of the Cherokee Nation regardless of the wishes of the masses. The official machinery was under their control, and their defeat is regarded almost as miraculous. Mayes is liberal and progressive, and is pledged to reform. He is chosen for a four-year term. The friends of Bunch still claim his election.

Curious Contents of an Old Grave.

ST. MARY'S O., Aug. 4.—A young fellow named Bodkin, living with his father on the Keeble farm, just a half mile south of town, while digging a trench from the cellar, struck a grave in which there were a number of human bones, and with them a small iron box, which, upon being opened, was found to contain eighteen Spanish coins and one half dollar of United States money. The coins are all very old, the half dollar bearing date of 1795, and looks nearly as bright as a new one. The Spanish coins are much older, several bearing date of 1781. In the box was also found a gold finger ring and a brass nose ring. There are several more graves near by, which will also be investigated.

G. A. R. Encampment.

Stay-at-Homes.

The falling off in the Democratic majority in this county, as compared with that of 1883—the Knott-Morrow vote—was almost entirely caused by the stay-at-home citizens. In 1883 the vote at Dover was as follows:

Knott..... 128
 Morrow..... 40

This year the returns show the following:

Knott..... 88
 Bradley..... 41

At Lewisburg the poll books for the two years named show the following:

Knott..... 212
 Buckner..... 184
 Morrow..... 137
 Bradley..... 103

An examination of the returns will show that in most precincts the Republicans succeeded in getting out a fuller vote than their opponents.

If the full Democratic vote had been gotten out Buckner would have carried Mason County by at least 600 majority.

The stay-at-homes are too numerous in Mason County.

The Democrats should now turn their attention to the State of Ohio.

There were 10,316 names added to the pension rolls during the month of July.

In Campbell County there were 1,920 votes polled for the Labor ticket—all but thirty-five in Newport.

The United Labor party polled about 1,600 votes for Governor, and 3,000 for Representatives in Kenton County.

The local option people were badly worsted at Louisville. The liquor folks carried the town by 10,000 majority.

Colonel Bradley is badly off. He imagines the Democrats are going to rob him of his votes. The Democrats are not that kind of folks.

There were 2,700 votes cast in this county in favor of calling the constitutional convention. There were 4,019 entitled to vote on the question.

DURING the month of July last there was a net decrease of \$6,663,748 in the cash in the Treasury and a net increase of \$4,047,133 in the circulation.

Colonel Bradley ought to lose no time in getting better acquainted with Mason County Democrats. He would find them a little too honest to steal votes.

THINK of it, over 65,000 foreigners came in from the old country during the month of June. But let 'em come, if they are of the quiet and industrious sort of people.

THE Prohibitionists thought they would poll 50,000 votes in the State. The returns give them about 5,000. It seems that temperance and politics won't mix very well.

THE liquor folks of Fleming County will likely let the question alone for some time to come. The recent election ought to teach them that the people up that way are in favor of prohibition.

THE United Labor candidate for Representative at Lexington fared rather badly, but not much worse than the Prohibition nominee. Judge Mulligan, Democrat, downed them by a majority of 1,800.

THE late Republican candidate for Governor wanted a "fair count" here in Mason County, and telegraphed to Mr. Hawthorne Hill to see that he got it. Wonder what Mr. Bradley takes us for anyhow?

BRADLEY pretends to be very anxious for a fair count in Mason County. It would be well for Democrats to keep a close watch on him and his henchmen over in the mountain counties where Republicans are in power.

THE news from Washington City is that the Comptroller of the Currency has called upon all National banks for a report of their condition at the close of business August 1st. The information to be embodied in the report just called for is expected to be particularly valuable, as it will show how the banks are prepared to meet the approaching demand for means to move crops.

THAT wild-eyed idiot, David A. Murphy, late of the Danville (Ky.) Tribune, rises to remark in the Findlay (O.) Tribune, that "the war between the North and South will be fought over within the next twelve years, and all Southern rivers will run red with blood." Halstead can now take a back seat.—Louisville Times.

Yes, and if such a thing ever should come to pass, such ranters as Murphy would be found as far from the front as they could possibly get. They do their fighting with pen and ink.

FACTS AND FIGURES.

Gathered From the Latest Reports of the Recent Election.

Buckner's majority is 160 in Fleming. Buckner's majority in Harrison is reported at 672.

Mr. Kenton carried Robertson over 400 for the Legislature.

Local option carried in Carlisle precinct by 181 majority.

Carter County gave Bradley only about 200 majority, a big Republican loss.

Buckner carried Bath County by 200 majority—a slight Democratic gain.

Over 200 negroes voted for Thomas, Democrat, for Representative, in Bourbon County.

Dr. Huff, Republican, is elected by a small majority in the Fleming-Bath Rowan Senatorial district.

In Jessamine County, Jones, the Democratic nominee for Representative pulled through by 10 majority.

Clark County's majority for Buckner is only 75, a falling off of 100 compared with the Congressional vote last fall.

Bradley carried Mt. Sterling by a small majority, due to the local issue of whisky. Local option at that place was defeated.

Hillis (Rep.) for the Legislature, carried Lewis County by 605 majority, the vote on the State ticket being but little less.

The Democratic majority in Bourbon County on the State ticket is only 13. On the Legislative ticket the majority is 662.

Fayette County gave Buckner 222 majority, the first time in years that there has been a Democratic majority for Governor.

In Mercer County the returns give Curry, Republican-Prohibitionist, 207 majority over Phil B. Thompson, Democratic nominee.

In the Nicholas Senatorial district Dr. Reynolds is elected by about 1,300. Nicholas gave him 458 majority, Harrison 670, Robertson 184.

Bradley carried Greenup county by 100 majority. Rardin, Republican, editor of the Gazette, defeats Callon, Democrat, editor of the Herald, by 75 majority, for Representative.

The Democrats of Bracken won a big victory. Buckner's majority is 449, Walton's 328. Doniphan, Walton's Prohibition opponent for the Legislature, polled only 97 votes in the county.

The Republicans made gains in Boyd and Lawrence counties, electing their candidate for the Legislature by 80 majority. A dispatch says the Republicans got the office, but they paid dearly for it.

The Republicans carried Johnson County for Bradley by 445; Brown, for State Senator, 510; and Langley, for Representative, 421. This will probably insure the election of Langley, Republican, to the Legislature from Johnson and Floyd counties.

"All Men Are Liars."

said David of old. He was probably prompted to make the above remark after trying some unreliable catarrh remedy. Had he been permitted to live until the present day, and tried Dr. Sage's Remedy, he might have had a better opinion of mankind. We claim that no case of catarrh can withstand the magic effects of this wonderful medicine. One trial of it will convince you of its efficacy. By druggists; 50 cents.

Mason and Dixon's Line.

Our commissioners are on a still hunt for the old Mason and Dixon line between Adams and Fulton county, dividing Franklin from the Maryland side. They say that it is the worst job they have undertaken for many years. They started in Fulton county, crossed seven mountains and landed at the foot of Clay Lick mountain. During the trip they only found one stone missing, and that was in Polecat valley. That stone was taken by some miscreant from Baltimore, who happened there some years since on a hunting expedition. What they wanted with the stone is unknown and will remain a mystery. It is a singular fact that every fifth stone has upon its face the crown of England. When we of today, taking history as our guide, find that this line was run in 1730, and look over the years intervening, it is a wonder that all the stones have not been mutilated or destroyed.—Chambersburg Repository.

Custer's Last Fight.

History has been corrected somewhat since that dark and bloody page was recorded, and not the least important is that the Indians outnumbered fully five to one all the white men in the country, including the different commands of Custer, Benteen, Reno, as well as Gen. Terry's and Gen. Gibbon's commands, then at the forks of the two Horn rivers, on the way up to effect a junction with the Seventh cavalry. Had they only known it the savages could have swept everything before them, as they were in superior force, armed with magazine rifles and fighting for their lives, although, as a rule, our North American aborigines have a wholesome dread of artillery, of which Gen. Terry had one or two pieces along.—New York Sun.

In rural parts of Northumberland it is the custom to place a stool at the church door during the progress of the marriage service, over which the newly married couple must jump as they leave the sacred edifice. They are allowed, however, to walk out on payment of a small forfeit, which is spent in drink.—All the Year Round.

ARMSTRONG CHAPEL, in the Fifth ward, is being remodeled and converted into a dwelling house.

FOURTEEN hands employed on the new bridge at Cincinnati were overcome by the heat one day this week.

REVS. J. D. WALSH, of Newport, and Thomas Hanford, of this city, left last evening for Ruggles' camp meeting.

ALBERT STOFER, of Mt. Sterling, and Miss Judy, of Winchester, eloped to Cincinnati this week, and were married at the Gibson House.

DICK MARSH is summering at Chautauqua with the Cora Van Tassel Company. They say he has been very successful financially.

At Covington they have a law to prevent crowds from assembling within sixty feet of the polls. It was rigidly enforced last Monday.

J. H. SHROPSHIRE, a prominent farmer of Scott County, was badly cut up by a mowing machine some days ago, and died Tuesday of his injuries.

REV. C. J. HOWES, Presiding Elder, and Rev. C. H. Williamson, both of Covington, passed through town to-day on their way to Ruggles' camp meeting.

AD. HALL, son of Professor C. J. Hall, is in a railroad office at Dallas, Texas. He writes that Dallas is the liveliest business town he has yet struck.

The Cincinnati Democrat says: "There are seventy-four members of the Smith family and sixty of the Jones' who have deeds recorded in the County Clerk's office."

The taxable value of property at Winchester, Ky., has doubled since the completion of the Kentucky Central to that point a few years ago. That place now pays one-sixth of the taxes of Clark County.

SAYS the Carlisle Mercury: "T. F. Kiff, who has been trying to run the politics of Nicholas, Harrison and Robertson for the last three months, has returned to Maysville and is again taking in washing."

WILLIAM REMLEY and John Bradshaw, living a short distance above Augusta, quarreled the other day and came to blows. Remley got the worst of it, and is in a critical condition. He was badly cut in the side with a knife.

A HIVE of bees at the house of Mr. William Boggs, near Richmond, Ky., swarmed in the usual way, two or three weeks ago. They settled on a cedar tree, and, contrary to all knowledge of all bee customs, they went to work making honey on the limb. The quantity has grown steadily day by day, and is now about the size of a half-bushel basket. The Climax is authority for this story.

PERSONS wishing to study short-hand will never have a better opportunity than now. Mr. H. T. Murtha, a veteran stenographer, who reported the sermons of the famous evangelist Sam Jones at Nashville, Tenn., two years since, is in town, organizing a class. The tuition fee is only ten dollars, for a full course. No class attendance is required. Mr. Murtha has been disabled by an attack of paralysis from active work, and is now engaged in teaching. You pay your tuition fee when you read and write readily.

Stock and Crops.

In Lincoln and Mercer counties hogs are selling at from 4 1/2 to 4 3/4 cents.

The fruit crop of nearly every kind is almost a total failure in many sections.

Dr. S. M. Lowry, of Todd County, near the Tennessee line, cut his tobacco last week, and will have it cured and on the market at Clarksville, by the 15th inst.

A lot of twenty-two hogheads of Mason County tobacco, offered at the Cincinnati House, brought an average of \$19.10, prices running from \$17.50 to \$23.50.

The Constitutionalist says Mr. S. H. Calloway, of Henry County, refused \$30 per hundred for 4 hogheads of his tobacco. He has eight acres in this season, and it is in good fix.

At Cleveland, Friday, the races between Harry Wilkes and Patron, for \$5,000, was won by Patron, in straight heats. Best time, 2:14. The free-for-all race was won by Johnson. Best time, 2:11 1/2.

In many portions of the State the drouth is very severe, and the crops are reported badly injured. A party who came from Eddyville, in Southern Kentucky, the other day says that for one hundred miles along the Cumberland & Ohio Railroad coming toward Louisville there is neither drinking nor stock water, and when the train would stop at a station the citizens would rush into the cars like madmen in search of water. At Eddyville stock is being driven four and five miles to the Cumberland river.

Saved by a Dog.

While engaged in taking some honey this morning, Mrs. Alex Berry was attacked by the bees, at her home on Cabin Creek, and badly stung on her head and face. A large dog, belonging to the family, was attracted by her screams, rushed to the scene, and began fighting the bees. The insects now turned their attention altogether to the animal, and Mrs. Berry escaped to the house. The bees swarmed about the dog and stung him to death in short time. A gentleman who lives in that vicinity vouches for the truth of the above.

A Prize in the Lottery

of life which is usually unappreciated until it is lost, perhaps never to return, is health. What a priceless boon it is, and how we ought to cherish it, that life may not be a worthless blank to us. Many of the diseases that flesh is heir to, and which make life burdensome, such as consumption (scrofula of the lungs), and other scrofulous and blood diseases, are completely cured by Dr. R. V. Pierce's "Golden Medical Discovery" after all other remedies have failed. Dr. Pierce's treatise on consumption mailed for 10c. in stamps. The Young Men's Aid Society, of the Christian Church, meets Friday, August 5th. A full attendance of its members is desired; also all the male members of the church. Business of importance.

JAMES LYNCH, Secretary.

In Louisville, a lawyer who is not a church member, was asked to make a temperance speech by a church member. "All right," said he, "I'll go down to your church and make my speech. Bring in that distiller and those wholesale liquor dealers who belong to your church. I want to commence on them." He was excused.—Exchange.

Says the Western Tobacco Journal, of Cincinnati: "Our friend Perry Jefferson, the almost universally known traveling representative of the Globe Tobacco Warehouse, of this city, seems to have been making some good 'turns,' as he has bought a Bourbon County farm near Millersburg—90 acres for \$10,000. If Perry plants that in tobacco next year he will probably realize a good part of the purchase money from the profits, but we won't advise him, for if any one knows what to do with a farm it ought to be Perry."

COUNTY JUDGE STEWART, of Rowan County, has discharged D. Boone Logan's guard of "Law and Order" citizens from further service. They numbered about one hundred and ten men. Judge Stewart thinks the State troops will be able to preserve order during the term of court. It is the general opinion now at that place that there would have been a big fight between the factions and much blood shed, had the Governor not sent the troops.

Information received from Morehead last night is that it would be several days yet before the court succeeds in empaneling a grand jury. All was still quiet at last accounts.

Ruggles' Camp Meeting.

CAMP GROUNDS, August 3, 1887. Editor Bulletin: Everybody is as busy as bees getting ready for our opening meeting to-morrow. We have now forty-two cottages on the ground, besides the hotel, children's chapel, etc., and all these are rented. We could dispose of several more cottages if we had them.

The camp looks fine after the delightful rain Tuesday, and the water is the most refreshing one ever drank. Many who have attended these meetings have acknowledged that they received great benefits from drinking this water.

Quite a village has sprung up here since the camp meeting was established. It consists of one large store, kept by Jerry Hawley, two blacksmith shops, cooper shop and dwelling houses.

Several families came up from Maysville this morning: Charles Sheppard and family, Mrs. I. M. Lane and family, John Walsh and family, Mrs. William Davidson and four daughters of Mr. George Burrows; also Mr. John Tucker, of Washington. All seem rejoiced to get back once more on the old camp ground, and we expect one of the grandest meetings ever held here. The ministers already present are Revs. W. F. Maithie, of Vanceburg, J. F. Marriott, of Tollesboro. J. W.

An End to Bone Scraping.

Edward Shephard, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. Have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is, now sound and well."

Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnica Salve at 25c per box by J. C. Pecor & Co., and S. P. Campbell & Co., of Aberdeen Ohio.

She Got There All the Same.

There was a young lady in Worcester who was chased by a big Shanghai rooster; so frightened was she that she "shinned" up a tree! No one being present to borester.

A Captain's Fortunate Discovery.

Capt. Coleman, schr. Weymouth, plying between Atlantic City and N. Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast. His children were similarly affected and a single dose had the same happy effect. Dr. King's New Discovery is now the standard remedy in the Coleman household and on board the schooner. Free trial bottles of this standard remedy at the drug stores of J. C. Pecor & Co., and S. P. Campbell & Co., of Aberdeen Ohio.

GENERAL FOREIGN NEWS.

THE TOBACCO TRADE ABROAD AND AT HOME.

How the Depression in Trade Has Affected the British Workmen—Sumatra Tobacco Finding Its Way Into the United States. Various Other Foreign News.

LONDON, Aug. 4.—The prevailing stagnation of trade and the system in vogue in foreign countries of giving bounties to various industries, thereby rendering British competition somewhat difficult, and in some instances absolutely impossible, have had their effect in increasing the normal misery of the English workmen to a point almost unendurable, but it has remained for the tobaccoist to fill the overburdened toiler's cup of unhappiness to overflowing.

The British workman could sleep soundly under the influence of the explanation of his miserable condition conveyed to him by that wonderful production, the report of the royal commission to inquire into the causes of the depression of trade, and he has received a more or less definite promise that the government will in some way relieve him of the load imposed upon him by the foreign bounty system; but there doesn't seem to be any remedy at hand for the new evil that besets him, and from which not only the English workman alone, but every English consumer of tobacco is suffering.

The British smoker has made the discovery that his pennyworth of tobacco has sustained a serious diminution in weight, and consequently, when informed of the reason, anathematizes the American tobacco grower and the American drouth for the decreased acreage planted and the smaller crop produced. The tobacco trade here, as in America, seems to be passing into the hands of Hebrews, and even the small dealers among them appear to have a degree of familiarity with the details of the business which the English tobacco shopkeeper lacks, and if rumor does not belie them, a much greater elasticity of conscience when recommending their wares.

The ordinary Englishman will buy almost anything offered to him in the way of tobacco, and accepts a mixture of ground stems and sweepings with a confidence which must be the result of long habit. None but swells smoke cigars habitually here, and judging by the smell of what are consumed in public none but the greatest swells smoke good ones; yet the Englishman is fastidious to a high degree when compared with the continental smoker. An American is apt to think that nothing in the world can be worse than the cigars smoked in France, until he has inhaled the odor of an Italian "cavour," and the flavor of the latter is as incense by the side of a Hamburg weed, which is popularly supposed to be fashioned of brown paper saturated with tobacco juice.

The Dutch owners of the Sumatra tobacco plantations are preparing to make a strong effort to have the tariff on their product reduced, at the next session of the American congress. Despite the almost prohibitory duty at present existing, one-sixth of their last year's crop found its way to the United States and under more favorable conditions the Sumatra growers could drive the American wrapper producers out of business.

The agents of the French government in the United States are said to have made large purchases of tobacco before the rise.

Aid in Behalf of the Swiss Sufferers.

CHICAGO, Aug. 4.—The Swiss consul in Chicago received a circular from the federal council of Switzerland yesterday, requesting him to appeal to the Swiss residents of Chicago for aid in behalf of the sufferers of Zug. The circular is signed by Hertenstein, the vice president of the Swiss Federal council, and Reinehr, the chancellor of the republic. It says that the recent disastrous avalanches in Zug made over 600 families homeless. Twenty-five houses had been thrown into the lake, and thirty houses were so shattered that they had to be removed. The losses amount to millions of francs, and the treasury of the Zug Canton being exhausted, it was decided to appeal to all Swiss at home and abroad for contributions.

Closely Watching American Fishermen.

HALIFAX, N. S., Aug. 4.—There are now seven Canadian cruisers on the mackerel grounds looking after American fishermen. The mackerel are very plentiful inshore and the Americans very daring, but with the presence of so many cruisers on the lookout, opportunities for them to steal Canadian fish are not many. Capt. Lorway writes that for weeks at a time he has not been able to take off his clothes, so closely has he to follow every move of the Americans.

Cigarmakers Locked Out.

NEW YORK, Aug. 4.—The employees of Jacob Stahl, Jr., & Co., cigar manufacturers of Norristown, refused to work at less than union wages, and were locked out by the firm. The wives of the cigarmakers waited all day yesterday, with kettles of boiling water handy, in anticipation of a visit from the marshal. An effort to eject the tenement was made to-day, and trouble is expected.

NEW YORK, Aug. 4.—Filemon Zaliwski, the Australian postal official who stole 120,000 florins and came to America, and was captured here, was to-day sent back to Australia on the steamer Elba. About \$30,000 of the stolen money was seized by United States Marshal Bernhard, who made the arrest, and it was also sent back. Marshal Bernhard's fees in the matter will be about \$4,500.

Only \$9,000 Short.

NEW YORK, Aug. 4.—A special from Bath, N. Y., says that at a special meeting of the board of trustees of the New York Soldiers' and Sailors' home held yesterday, Treasurer Robie was ousted. An examination of his books showed him to be \$9,000 short, Robie's friends will make the amount good.

Three Hundred Acres of Land Sinks.

EVANSVILLE, Ind., Aug. 4.—A Courier special from Paducah, Ky., says that just preceding the earthquake Monday night, a farm of 300 acres, planted in corn and tobacco, sank from four to six feet, and that the basin at once began to fill with water. There were two colored families living on the place, who did not feel the settling of the earth, but were awakened by water pouring in on the floor of their cabins. They got on to high ground safely. Trigg county is about sixty-five miles from "the sunken lands," that went down sixty to seventy feet during the New Madrid convulsions about sixty years ago.
